

SCI ENGINEERING, INC.

Shawna L. Erter, P.E., D.GE, M.ASCE Vice President

Shawna joined SCI Engineering in 2001. She is Vice President and head of the company's Geotechnical Services. Her responsibilities include preparation of reports and proposals for subsurface explorations, as well as foundation design recommendations, including both shallow and deep foundations as well as slope stability, liquefaction and settlement analyses. Shawna reviews geotechnical reports and analysis, provides reviews of project plans and specifications, attends project meetings, and provides technical and educational presentations to clients, professional organizations and students. She is also an ASCE Board Certified Diplomat.
