Join us at ASCE2027: The Infrastructure and Engineering Experience

For the first time, ASCE, its institutes, and its Center for Technical Advancement are coming together.

ASCE2027 is where changemakers from across the infrastructure landscape unite to ignite bold ideas, tackle the world's most pressing challenges, and pioneer the breakthroughs in engineering research, technology, and practice that will shape a brighter, more resilient future.

ASCE2027 is more than just a conference—it's a transformative experience.

Call for content open until March 4, 2026.

It's a new year!

A lot of change is underway for 2026 – from Chi Epsilon officially joining the ASCE family to welcoming a new executive director. And there's no better way to experience this exciting new chapter than through the events that bring us together. This calendar is your guide to a year filled with connection, learning, and shared momentum.
