

GULF COAST STUDENT SYMPOSIUM
MARCH 31st – APRIL 2nd, 2022

SPONSORSHIP PACKAGE 2022

The Auburn University Student Chapter of the American Society of Civil Engineers is thrilled to announce that we are *Back on Track* and hosting the 2022 ASCE Gulf Coast Regional Student Symposium, March 31st - April 2nd, 2022.

The Auburn Family is gearing up to host the Student Symposium, organize competitions, and recognize the engineering talent within our newly formed Gulf Coast Conference. The three-day symposium is expected to draw more than 300 students from 15 universities across Alabama, Louisiana, and Mississippi. Student members will be presented with the opportunity to put their engineering skills to the test, showcase their school spirit, and network with industry professionals, all while competing for national and regional titles.

The Student Symposium is undoubtedly the largest event of the year for ASCE Student Chapters. Hosting the Symposium would be unfeasible to organize without the support of our ASCE Champions. The hosting committee is composed of faculty, staff, and student leaders that are planning and organizing this outstanding event, with the goal of providing a great and quality experience for our Gulf Coast Conference students. If you are interested in becoming an ASCE Champion for the 2022 Student Symposium, please check out the sponsorship packages that our team has assembled to determine which one is right for your organization.

Sponsorship offers companies and individuals the ability to display their support by providing financial and in-kind donations. Sponsors will have the opportunity to promote their organization, engage with engineering students, and show support within the society. Please contact us at ASCE2022@eng.auburn.edu or visit us online at www.aub.ie/ASCE2022 if you are interested in supporting this student-led initiative and help make a significant impact within our engineering community. Volunteering opportunities will also be made available for those that would like to participate as judges and competition coordinators.

Thank you for your consideration!

Brian Roche

Chair, 2022 Gulf Coast Conference Student Symposium
