

Jerry B. Paz, P.E., M.ASCE
Region 6 Governor

Jerry Paz has been with the consulting firm of Molzen Corbin for over 32 years and is assigned to Molzen Corbin's Las Cruces, New Mexico office as Vice President and Branch Manager. Jerry has designed over 125 miles of federal, state, and local roadways throughout New Mexico including the first Diverging Diamond in New Mexico at I-25/NM 14 (Cerrillos Road) in Santa Fe, as well as incorporating sustainable pervious concrete pavement on NM 47 in Peralta, NM. He has designed utility projects for municipal/community water and wastewater systems throughout southern New Mexico.

Jerry is on the Board of Directors for ACEC-New Mexico, and he has previously held local and state offices in New Mexico Society of Professional Engineers. He is the past Chairman of the Las Cruces Chamber of Commerce Transportation Committee, and he is a former Board Member of the Good Neighbor Environmental Board, which advises the President and Congress on environmental policy issues along the US/Mexico Border.

Jerry is a past President of the NMSU Civil Engineering Academy and a NMSU Chi Epsilon Chapter Honor Member. He is a former Board Member of the Community Action Agency of Southern New Mexico, Scout Leader for Boys Scouts of America, and Board Member of the Las Cruces Catholic Schools. Jerry is a Registered Professional Engineer in both New Mexico and Texas, and an ENVISION Sustainability Professional. Jerry is a current ASCE Region 6 Governor and a past NM Section President.
